

By rounding to 1 significant figure, estimate the answer to this calculation:

50

$$2.4 \times 4.7$$

By rounding to 1 significant figure, estimate the answer to this calculation:

10

$$21.5 \div 4.3$$

By rounding to 1 significant figure, estimate the answer to this calculation:

5

$$58 \times 32$$

By rounding to 1 significant figure, estimate the answer to this calculation:

1800

$$4.3 \times 21$$

By rounding to 1 significant figure, estimate the answer to this calculation:

80

$$8.9 - 2.7$$

By rounding to 1 significant figure, estimate the answer to this calculation:

6

$$4.9 \times 35$$

By rounding to 1 significant figure, estimate the answer to this calculation:

200

$$25.3 \times 76.8$$

By rounding to 1 significant figure, estimate the answer to this calculation:

2400

$$234 + 467$$

By rounding to 1 significant figure, estimate the answer to this calculation:

700

$$18 \div 4.5$$

By rounding to 1 significant figure, estimate the answer to this calculation:

4

$$54 \times 36$$

By rounding to 1 significant figure, estimate the answer to this calculation:

2000

$$4.6 \times 3.1$$

By rounding to 1 significant figure, estimate the answer to this calculation:

15

$$2380 \div 39.6$$
